

D-BAUG Informatik I

Exercise session: week 0

HS 2018

Intro

Welcome!

We're here to help. Ask questions, send emails.

This week

Homework

- Java Tutorial (this week only)
- Weekly online homework (expert.ethz.ch)

Online exercises: expert.ethz.ch

Enroll with your nethz account.

`https://expert.ethz.ch/enroll/AS18/inf1baug`

Make sure you are enrolled to this exercise group!

If you have trouble, ask for help.

Online exercises

- Weekly, hand in by Wednesday evening (23:59).
- XP points awarded for successfully completing exercises.
- XP points unlock bonus exercises (2 during the semester) that are worth up to 1/4 of a grade.

Online exercises

- We will provide feedback.
- The code exercises are auto-graded: there will be a minimum passing threshold to obtain the XP.
- The XP points value of task is shown next to the task in expert.

Online exercises

Only the **last** submission counts. If you try things out, make sure to re-submit your best solution.

We can see the history of your code changes: in some cases we may look at how you got to the solution.

Online exercises

Demo.

`https://expert.ethz.ch`

Online exercises: Rules

- No cheating allowed. While we encourage discussing exercises in groups, each submission must represent the work of a single student.
- Follow the rules. Certain exercises have specific rules. Submitted solutions that do not follow these rules will have points deducted.
- Solutions that are not solving the given task but only the given test cases count as failed.

Try the first exercise

Try the first two exercises on your laptops, and submit.

If you don't have a laptop with you, work with someone sitting next to you. You can try with your account later.
