Introduction to Pointers

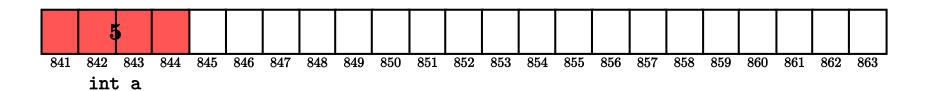

```
int a = 5;
int* x = &a;

char c = 'd';
char* z = &c;
```

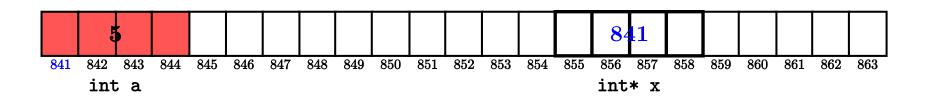

```
int a = 5;
int* x = &a;

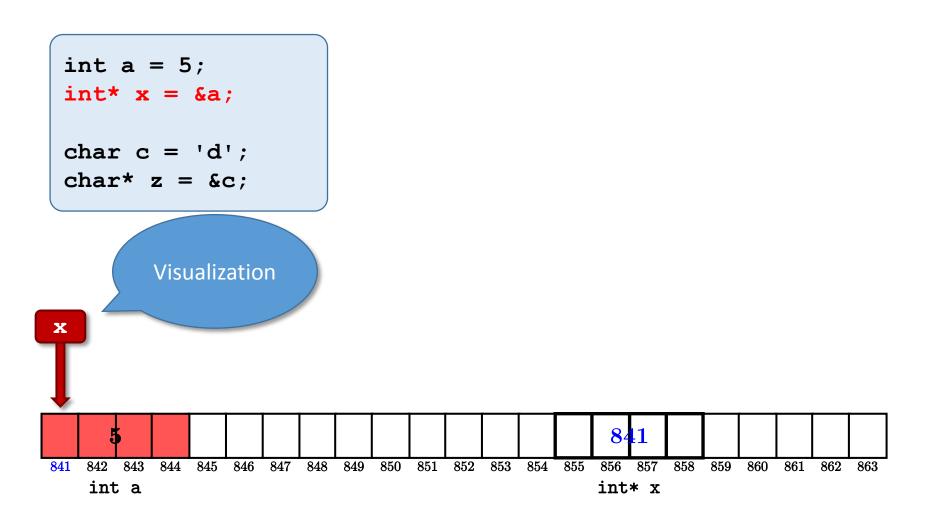

char c = 'd';
char* z = &c;
```

```
int a = 5;
int* x = &a;

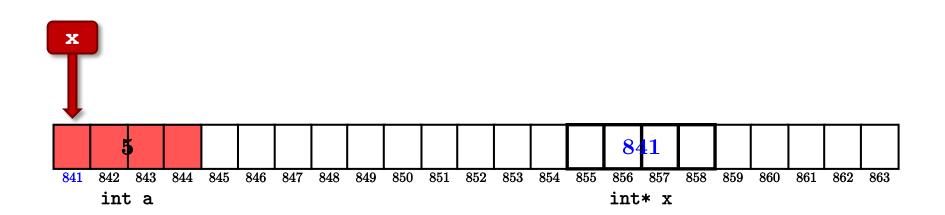

char c = 'd';
char* z = &c;
```

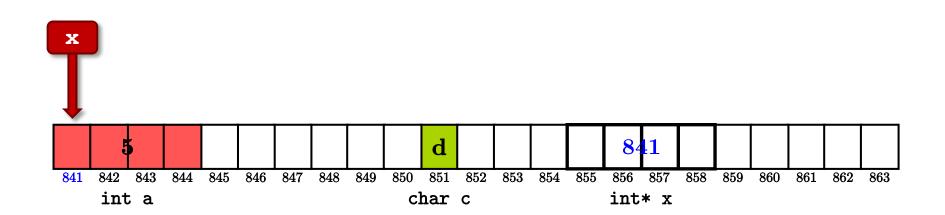

```
int a = 5;
int* x = &a;

char c = 'd';
char* z = &c;
```

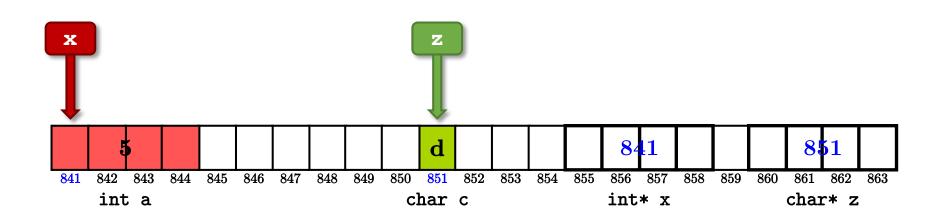

```
int a = 5;
int* x = &a;

char c = 'd';
char* z = &c;
```

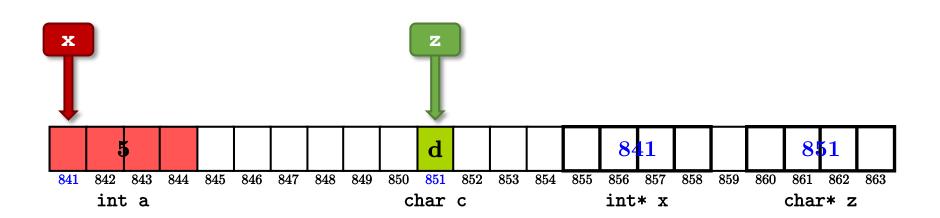

```
int a = 5;
int* x = &a;

char c = 'd';
char* z = &c;
```

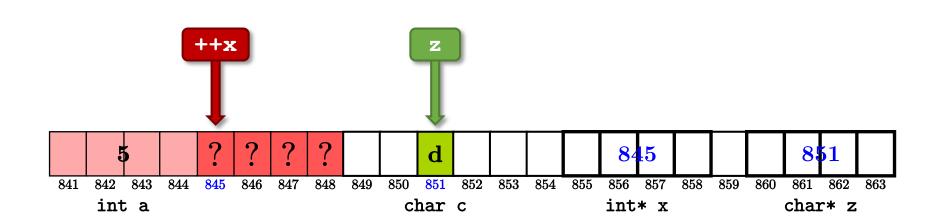

Shifting Pointers

```
++x;
++z;
```

```
++x;
++z;
```

```
++x;
++z;
```
